

HRIS migration and acceptance QA support

Prepared by Nakul as an independent freelancer/sole proprietor for American Battle Monuments Commission. I can provide a fixed HRIS QA/readiness support slice through the required federal or prime/subcontract channel. This is not a full prime-vendor proposal unless the buyer confirms that path; it is a bounded support slice.

Buyer	American Battle Monuments Commission
Opportunity	Human Resources Information System RFP 74330226R0044
Package	USD 12,500 fixed - HRIS migration and acceptance QA support
Path	Federal-procurement-aware support note; formal RFP instructions control.

Fit

The full HRIS response is formal, but a compact migration/UAT support slice can strengthen the implementation evidence if ABMC or a prime uses specialist support.

Area	Support deliverable
1	Requirements-to-acceptance matrix for the highest-risk workflow slice
2	Sample-data mapping checklist with duplicate, missing-value, and exception rules
3	Role-based UAT scripts with pass/fail evidence capture
4	Issue and retest register with severity, owner, and closure criteria
5	Reporting/export validation checklist for priority operational outputs
6	Executive handoff memo with open risks and recommended next actions

Boundary

No employee PII, HR records, credentials, or controlled data should be sent by email; use dummy data or an approved secure workspace.

Fixed price: USD 12,500	If this type of named support slice is appropriate, please advise whether it should be included directly or through the prime/subcontract path.
