

Website launch QA, accessibility, and donor-path support

Prepared by Nakul as an independent freelancer/sole proprietor for Society of St. Vincent de Paul Cincinnati. I can provide a fixed QA/readiness package for SVDP or the selected web vendor without taking over the full redesign. This is not a full prime-vendor proposal unless the buyer confirms that path; it is a bounded support slice.

Buyer	Society of St. Vincent de Paul Cincinnati
Opportunity	Website and digital presence RFP
Package	USD 6,800 fixed - Website launch QA, accessibility, and donor-path support
Path	Email-ready support packet for RFP review or selected-vendor routing.

Fit

The RFP is mission-critical: donor trust, volunteer conversion, service navigation, and accessible content all need structured QA before launch.

Area	Support deliverable
1	Current-state crawl and risk register for priority pages, forms, documents, and integrations
2	Accessibility, mobile, performance, SEO, analytics, and broken-link QA checklist
3	Content migration sampling plan with redirects, metadata, and ownership notes
4	Acceptance test scripts for staff review before launch or handoff
5	Defect and retest tracker with severity, owner, and closeout evidence
6	Launch-readiness memo with open risks, decision points, and next actions

Boundary

No donor, client, volunteer, or payment data should be sent by email; use public pages, dummy form submissions, and redacted examples.

Fixed price: USD 6,800	If useful, I can tailor this as a support attachment for the RFP response or route it to the selected website partner.
