

Fulbright Scholar website maintenance QA and accessibility support

Prepared by Nakul as an independent freelancer/sole proprietor for Institute of International Education. I can provide a fixed QA/readiness support slice that complements a full-service website maintenance provider. This is not a full prime-vendor proposal unless the buyer confirms that path; it is a bounded support slice.

Buyer	Institute of International Education
Opportunity	RFP 05062026/AK Fulbright Scholar Program Website Development and Maintenance
Package	USD 12,500 fixed - Fulbright Scholar website maintenance QA and accessibility support
Path	Email-ready support packet; IIE's RFP instructions and attachment limits control.

Fit

The RFP calls for website maintenance, enhancement, quarterly checks, broken-link/form testing, analytics reporting, access-controlled content, and responsiveness standards.

Area	Support deliverable
1	Current-state crawl and risk register for priority pages, forms, documents, and integrations
2	Accessibility, mobile, performance, SEO, analytics, and broken-link QA checklist
3	Content migration sampling plan with redirects, metadata, and ownership notes
4	Acceptance test scripts for staff review before launch or handoff
5	Defect and retest tracker with severity, owner, and closeout evidence
6	Launch-readiness memo with open risks, decision points, and next actions

Boundary

No applicant, program participant, or protected account data should be sent by email; use public pages, dummy forms, and approved test accounts only.

Fixed price: USD 12,500	If a named support resource is acceptable, I can include this as a small fixed scope or route it to the full-service provider path.
