

Youth-services website QA and campaign-readiness support

Prepared by Nakul as an independent freelancer/sole proprietor for THRIVE Victoria. I can provide a bounded QA/readiness support package beside the chosen designer/developer or as a small fixed add-on. This is not a full prime-vendor proposal unless the buyer confirms that path; it is a bounded support slice.

Buyer	THRIVE Victoria
Opportunity	Website Designer RFP
Package	USD 7,500 fixed - Youth-services website QA and campaign-readiness support
Path	Email-ready support-sidecar for RFP review or selected-vendor routing.

Fit

The RFP has clear dual-user journeys: donors/funders and clients/youth/families. That makes structured path testing, accessibility, privacy-safe forms, and CMS handoff especially important.

Area	Support deliverable
1	Current-state crawl and risk register for priority pages, forms, documents, and integrations
2	Accessibility, mobile, performance, SEO, analytics, and broken-link QA checklist
3	Content migration sampling plan with redirects, metadata, and ownership notes
4	Acceptance test scripts for staff review before launch or handoff
5	Defect and retest tracker with severity, owner, and closeout evidence
6	Launch-readiness memo with open risks, decision points, and next actions

Boundary

No client, youth, family, donor, or private service data should be sent by email; use public content, dummy forms, and redacted examples.

Fixed price: USD 7,500	If useful, I can provide this as a support slice around the main website proposal or route it to the selected vendor once chosen.
