

3D Walkabout HubSpot-ClickUp sprint follow-up

Prepared by Nakul as an independent freelancer/sole proprietor for 3D Walkabout. I can keep the first milestone tight: confirm the workflow, work from approved samples or public/staging material, produce acceptance evidence, and hand off the exact next fixes. This is not a replacement for the main vendor, legal certification, hosting contract, or ongoing managed service unless separately agreed.

Buyer	3D Walkabout
Opportunity	3D Walkabout HubSpot-ClickUp sprint follow-up
Package	USD 1,800 fixed - 3D Walkabout HubSpot-ClickUp sprint follow-up
Path	Follow-up to the previously sent support packet; can move to billing or procurement if useful.

Fit

This is already scoped around the buyer's public RFP, public support request, or previously sent packet.

Area	Support deliverable
1	Requirements-to-acceptance matrix for the highest-risk workflow slice
2	Sample-data mapping checklist with duplicate, missing-value, and exception rules
3	Role-based UAT scripts with pass/fail evidence capture
4	Issue and retest register with severity, owner, and closure criteria
5	Reporting/export validation checklist for priority operational outputs
6	Executive handoff memo with open risks and recommended next actions

Boundary

No credentials, private records, payment data, or production secrets should be sent by email; start with approved samples, public URLs, redacted screenshots, or a secure workspace.

Fixed price: USD 1,800	If this is worth considering, the fastest next step is a short approval note with the right billing contact and any procurement path I should follow.
