

ERP data conversion and UAT readiness sidecar

Prepared by Nakul as an independent freelancer/sole proprietor for City of St. Cloud - ERP Software and Implementation Services. This is a support slice beside an ERP implementation prime, or a formal portal component only if eligibility and forms are confirmed. This is not a full ERP software bid, accounting advice, HR compliance advice, hosting package, or managed implementation prime proposal.

Buyer	City of St. Cloud - ERP Software and Implementation Services
Opportunity	St. Cloud is procuring ERP software and implementation services for finance, HR/payroll, procurement, data conversion, interfaces, testing, and go-live support.
Package	USD 5,500 fixed; support slice only - ERP data conversion and UAT readiness sidecar
Path	St. Cloud OpenGov portal or approved ERP prime/subcontract path

Fit

The posted opportunity is active through June 9, 2026 and points to electronic procurement through OpenGov.

Area	Support deliverable
1	Conversion inventory worksheet for finance, HR, payroll, procurement, and assets
2	Interface risk log for inbound/outbound systems, owners, cadence, and failure modes
3	UAT script pack with role, data, pass/fail evidence, and retest fields
4	Cutover checklist with freeze, validation, rollback, and first-payroll safeguards
5	Proposal appendix language for migration, testing, and launch-readiness controls
6	Open decisions list for the ERP prime and City project team

Boundary

No payroll, employee, vendor, bank, or HR records should be sent by email; use schema-only exports, dummy records, or an approved workspace.

USD 5,500 fixed; support slice only	Use only through the St. Cloud OpenGov path or with an approved ERP prime/subcontract route.
