

CMS support and accessibility/security response pack

Prepared by Nakul as an independent freelancer/sole proprietor for South Carolina Governor's School for Science and Mathematics. This is a support appendix beside a qualified web/CMS prime or formal portal component if vendor registration and forms are confirmed. This is not a hosting contract, full redesign prime bid, legal accessibility certification, student-data compliance opinion, or cybersecurity certification.

Buyer	South Carolina Governor's School for Science and Mathematics
Opportunity	SC GSSM has a live website redesign/CMS/support solicitation with accessibility, security questionnaire, support, and maintenance needs.
Package	USD 5,900 fixed; response-support slice only - CMS support and accessibility/security response pack
Path	South Carolina procurement portal or approved web/CMS prime path

Fit

The official SC procurement attachment page is active for solicitation 5400028226, with a June 10, 2026 due date reported in the packet research.

Area	Support deliverable
1	Security questionnaire evidence map for CMS, hosting, access control, backups, and incident response
2	WCAG support plan with sample checks, cadence, exception handling, and ownership model
3	Integration inventory and test matrix for forms, calendars, media, analytics, and authentication
4	Monthly support KPI template for tickets, response, fixes, audits, and releases
5	Redacted-copy QA checklist for public procurement posting
6	Decision log for hosting, support, custom development, and maintenance assumptions

Boundary

No student, parent, applicant, donor, staff, credential, or nonpublic security data should be sent by email.

USD 5,900 fixed; response-support slice only	Use only through the South Carolina procurement path or an approved web/CMS prime route after forms are confirmed.
