

District web RFP compliance sidecar

Prepared by Nakul as an independent freelancer/sole proprietor for Northside Independent School District - District Web Services. This is a support sidecar for a qualified district web prime or formal portal package if eligibility, references, and forms are already in place. This is not a full district web platform bid, FERPA legal opinion, hosting proposal, school communications platform, or long-term managed services contract.

Buyer	Northside Independent School District - District Web Services
Opportunity	Northside ISD issued RFP 2026-070 for District Web Design, Development, and Implementation Services through Bonfire/Euna.
Package	USD 7,500 fixed; portal/prime support only - District web RFP compliance sidecar
Path	NISD Bonfire/Euna portal or approved district web prime path

Fit

The public RFP copy lists a May 13, 2026 opening and requires portal upload through Bonfire/Euna.

Area	Support deliverable
1	Statement-of-work response matrix aligned to required web, CMS, implementation, and support questions
2	Accessibility/security response matrix with evidence requests and unknowns
3	Data-transfer and FERPA-aware checklist for SFTP, authentication, exports, and role-based publishing
4	Pricing narrative skeleton separating platform, implementation, support, and optional services
5	Portal package QA checklist for required PDFs/XLS files, signatures, forms, and attachments
6	Submission readiness memo with blockers, missing references, and nonresponsive-risk flags

Boundary

No student, family, staff, SFTP, authentication, district account, or private website data should be sent by email.

USD 7,500 fixed; portal/prime support only	Use only with an approved district web prime or through Bonfire/Euna if all required forms and eligibility are ready.
