

# Salesforce-ActiveCampaign Make stabilization sprint

Prepared by Nakul as an independent freelancer/sole proprietor for Brittany / nonprofit Salesforce-ActiveCampaign Make scenarios. This is a fixed rescue sprint using dummy records or least-privilege access after approval. This does not include bulk outreach, list scraping, deliverability evasion, fundraising advice, or unauthorized CRM access.

|             |                                                                                                                          |
|-------------|--------------------------------------------------------------------------------------------------------------------------|
| Buyer       | Brittany / nonprofit Salesforce-ActiveCampaign Make scenarios                                                            |
| Opportunity | A nonprofit posted for help with multiple Make scenarios where Salesforce and ActiveCampaign are not working as desired. |
| Package     | USD 1,200 fixed; dummy records first - Salesforce-ActiveCampaign Make stabilization sprint                               |
| Path        | Make Community reply/DM to Brittany                                                                                      |

## Fit

The Make Community post is a direct Hire Help request and should be handled through forum reply/DM first.

| Area | Support deliverable                                                                                |
|------|----------------------------------------------------------------------------------------------------|
| 1    | Scenario audit for up to two Make workflows and the exact Salesforce/ActiveCampaign failure points |
| 2    | Field mapping and update-rule document covering creates, updates, ownership, and duplicates        |
| 3    | Filter, dedupe, and error-path fixes in a testable copy or approved workspace                      |
| 4    | Failure alerts for bad payloads, auth issues, missing fields, and repeated errors                  |
| 5    | Dummy-record test checklist with pass/fail evidence and retest notes                               |
| 6    | Short handoff runbook for future changes and safe credential rotation                              |

## Boundary

No donor, constituent, member, volunteer, fundraising, or sensitive CRM records should be shared by forum DM or email.

|                                      |                                                                                                           |
|--------------------------------------|-----------------------------------------------------------------------------------------------------------|
| USD 1,200 fixed; dummy records first | Reply or DM in Make Community with the packet link; ask for a dummy record and the two failing scenarios. |
