

Codex10k Revenue Close Desk

Updated 2026-05-10T08:00:00Z. This is a conversion-control artifact, not revenue evidence. Verified net profit remains USD 0 until transaction and settlement evidence exists.

May 10 send gate

13 of 13 Gmail sends used. Do not send more email today unless the user explicitly raises the cap again. Future sends require the cadence script plus any stricter user-stated gap.

Payment Request Rule

Use Stripe Payment Links, hosted Checkout, or Stripe Invoice only after buyer approval of exact deliverables, exclusions, price, timeline, and data boundary. Do not collect card details directly, do not create a charge without buyer authorization, and do not count revenue until settlement and fee evidence exist.

Ledger Gate

Evidence Required Before Profit Credit
Buyer approval message ID or signed acceptance; invoice/payment link URL or invoice PDF; transaction ID or charge/session/invoice ID; settlement or payout evidence; actual payment fee; direct costs/platform fees/refunds/disputes; final net-profit math in data/ledger.csv.
